BOTTLE JACKS

Item highlighted above is B-002D

MANUAL **BOTTLE JACKS**

Meets or exceeds ASME PASE 2014

NUMEROUS **APPLICATIONS**

These hydraulic automotive jacks can also be used for truck and agricultural equipment service. Adjustable extension screws allow the saddle to accommodate any desired work height in shop or at a jobsite.

SAFE **FEATURES**

Our bottle jacks have a built-in bypass system which protects against ram over-travel. They were designed to meet or exceed the latest ASME/PASE standards.

LONG **LASTING**

Critical stress areas are heat treated to ensure a long performance life. All bottle jacks are welded at both the top and base to prevent leaking and prolong durability.

LOW PSI **BOTTLE JACKS**

LOW PSI **APPLICATIONS**

Specially designed air motors allow these bottle jacks to efficiently lift with a lower supply line air pressure and are compatible with most small-home air compressors.

LONG **LASTING**

Critical stress areas are heat treated and the painting process protects against moisture damage to ensure a long performance life.

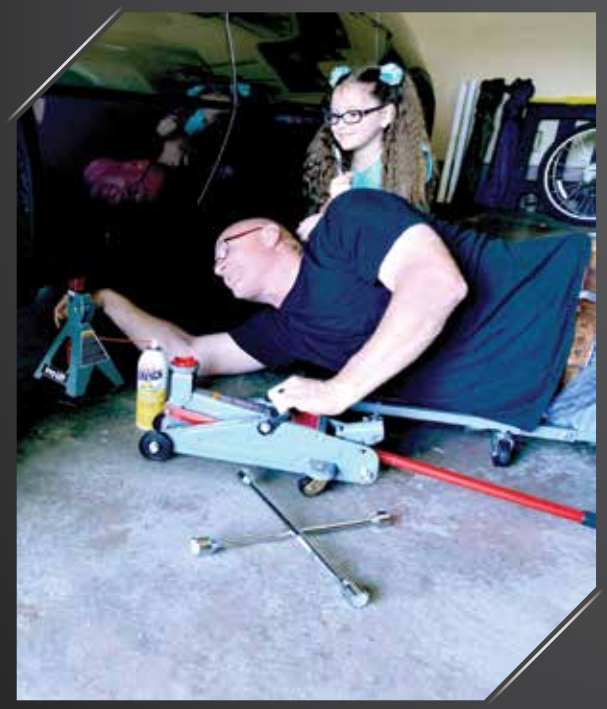
F-2315PE

EFFICIENT **LIFTING**

An all welded steel frame construction and rust resistant paint job provide jack longevity while large steel wheels and swivel casters promote easy maneuverability.

BONUS **CASE**

This 1.5 ton trolley jack stores easily in its protective polycarbonate blow-molded case. The case as well as the jack comes equipped with a carrying handle for easy transport.



COMBO **KIT**

The 2 ton trolley jack is now also available in a 6 piece combo kit for easy distribution and makes a great gift display option during holidays, special occasions and promotional periods.

GARAGE **JACKS**

SPEEDY LIFT **TECHNOLOGY**

With this patented technology, raising the jack saddle from resting position to the vehicle's chassis can be done quickly and effortlessly.

TRUCK / **SUV JACK**

This garage jack is specially designed for use with trucks and SUVs. An extra long lifting arm gives this jack the ability to be used with larger vehicles when conventional jacks cannot reach lift points.

F-2533

LOW **PROFILE**

This garage jack's low profile grants access to those "hard to get into places". A minimum height of 3.38" and a lifting range up to 15" ensure the ability to lift vehicles with the lowest of ground clearances.

F-767

CARRYING **HANDLE**

Along with its large steel wheels and swivel casters for easy maneuverability, these jacks also come with carry handles for easy transport.

SPECIALTY LIFTS

Item highlighted above is T-5300E

LAWN **MOWER LIFT**

Patent #: U.S. 8,608,130 B2 and D688,022

T-5300E

PATENTED **TECHNOLOGY**

A patented secondary locking mechanism ensures that the lift will remain raised until the load is lowered. The foot pedal design helps to alleviate the amount of work required to lift a mower, and large wheel baskets allow for a wide array of mower wheel bases to be serviced.

T-5310

Patent #: U.S. D703,413

PUSH MOWER **ADAPTER**

This patented adapter is designed to fit the majority of push mower models. It has a rated capacity of 150lbs.

MULTIPLE **PURPOSE**

Ideal for debris removal, belt, deck, filter and blade maintenance.

HEAVY DUTY **LAWN MOWER LIFTS**

ADJUSTABLE **WHEEL SPAN**

The wheel baskets are adjustable to fit a wheel span of 40.75” - 49.37”. Also, the baskets come with a support bar for those lawn mowers with smaller wheels.

T-5355A

PUSH MOWER **ADAPTER**

This patented adapter is designed to fit the majority of push mower models. It has a rated capacity of 150 lbs.

Patent #: U.S. D703,906

T-5510

HEADY **DUTY**

Welded tubular steel construction provides a durable product while employing a lighter frame. This lift is rated for 550lbs of lift reaching 23.37” high.

PROFESSIONAL **GRADE**

Giant 27” height clearance gives more working space than competitive “do it yourself” lifts. Thick, heavy-duty welded steel provides professional durability and longevity.

Our heavy duty all purpose utility lift is designed to lift a large variety of utility or specialty vehicles. Ideal for snow mobiles, UTV's, ATV's, dune buggies, sprint cars and more.

T-1250

SPECIAL **FEATURES**

This lift has a rated capacity of 1250lbs. The base of the lift has extensions if the load requires a larger secure base.

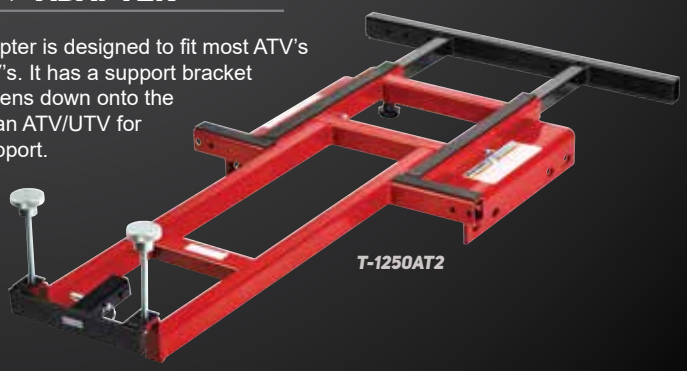
SNOWMOBILE **ADAPTER**

Designed to allow the lift to hold the front of a snow mobile snugly.

T-1250AT1

ATV/UTV **ADAPTER**

This adapter is designed to fit most ATV's and UTV's. It has a support bracket that tightens down onto the nose of an ATV/UTV for extra support.



T-1250AT2

SPECIALTY **LIFTS**

T-2300

PROFESSIONAL **GRADE**

Air Actuated bottle jack allows for effortless, pump-free, lifting. Rated capacity for this lift is 2300 lbs. It also has an extra wide base for more stability for those heavier lifts.

DESIGNED **FOR SAFETY**

Dual-locking safety latch for added safety when lifting heavy utility vehicles. Ideal for large ATV's/UTV's, snowmobiles, golf carts, flat bottom boats, etc.

LARGE UTILITY **LIFT ADAPTER**

Designed to allow the lift to raise wide frame utility vehicles with sliding arms for more precise control on the largest vehicles.
